Tourism Companies in Tanzania

Data Collection & Market Insights Project

Project Overview

This project involved collecting and organizing information on 50 tourism companies operating in Tanzania. The objective was to transform scattered online business information into a clean, structured dataset that can support tourism market research and business insights. This structured dataset can help tourism researchers, travel agencies, and investors understand the distribution of tourism businesses in Tanzania.

Dataset Summary

Total Companies	50
Country	Tanzania
Data Fields	Company, Location, Business Type, Services, Package Type, Website, Email, Phone
Data Sources	Company websites and tourism directories

Key Insights

• Arusha appears as the main tourism business hub due to the high number of safari companies.

• Safari tourism is the dominant business type in the dataset.

• Tourism packages are commonly categorized into Budget, Mid-range, and Luxury segments.
